Number Bonds

A number bond is two number that add together to make another specific number. We can use our fingers to spot number bonds to 10, put down 3 fingers, how many do you have left up to make 10 all together?

Can you find the matching number to these number bonds to 10?

Can you write the number bond the other way round too? ($9+1=10$ and $1+9=10$)

$$2 + \underline{\quad} = 10$$

$$5 + \underline{\quad} = 10$$

$$3 + \underline{\quad} = 10$$

$$0 + \underline{\quad} = 10$$

$$1 + \underline{\quad} = 10$$

$$4 + \underline{\quad} = 10$$
